

Rhodes University - DEPARTMENT OF PHYSICS & ELECTRONICS

Professor\ Associate Professor\Senior Lecturer

Recognising that diversity is important in achieving excellence, Rhodes University especially encourages South African members of designated groups to apply.

The Department of Physics and Electronics at Rhodes University seeks to fill this position with an individual committed to teaching and research in Physics. The applicant must be in possession of a PhD, and have a proven track record in teaching and research, including leading a research programme. The current research areas for the department are: Radio Astronomy, Experimental Solid State Physics, Nuclear and Particle Physics, Theoretical Physics, and Ionospheric Physics. The Department also has close ties with the SKA Project, CERN, and NRF National Facilities (iThemba Labs, HartRAO, and HMO).

The successful candidate will be expected to deliver high-quality theory and laboratory courses at both undergraduate and postgraduate level. Candidates whose research will complement the current directions within the Department are particularly encouraged to apply.

The preference is to make an appointment at Professor or Associate Professor level but candidates will be considered for appointment at any level.

It is essential that prospective candidates read the further particulars relating to this post and that all relevant documentation is submitted. Failure to submit such documentation will result in an application not being considered.

To Apply:

Please email your completed application form, *accompanied by* a substantial letter of motivation, curriculum vitae, and copies of certificates to:

jobs@ru.ac.za

Or you can post your application to: Recruitment & Selection Section, Rhodes University, P O Box 94, Grahamstown, 6140. For more information please contact 046 603 8004/8013.
