POST DOCTORAL RESEARCH FELLOWSHIP [PDRF] 2022
Faculty of Science & Agriculture

A fulltime postdoctoral position is available in the Department of Physics, Faculty of Science and Agriculture, at the University of Fort Hare (UFH), Alice Campus, South Africa. The fellowship will enable an outstanding doctoral graduate to obtain experience of research and innovation at a higher education institution under the mentorship of established researchers. The fellowship is awarded on a competitive basis, considering the applicants' academic achievements, publication outputs and research potential, as well as the relevance of prior experience and expertise in Science and Agriculture. The fellowship is available for a period of one year.

ELIGIBILITY CRITERIA:

- Applicants must have completed their doctoral degrees within the last five years.
- Must have graduated with a PhD degree in Physics/Renewable energy/Chemical engineering.
- Should be an expert in Renewable energy systems encompassing, Biomass (Biogas technology, Pyrolysis, Biomass Gasification), Wind Energy, Solar PV and Energy Storage Components). The candidate must have knowledge of hybrid system optimization and Mini-Grid designs. The knowledge of computational Fluid Dynamics (CFD) in internal combustion engines will be an added advantage.
- Preference is given to Women, South African Citizens, and SA Permanent Residents.
- Successful applicants must be able to relocate to the UFH for the duration of the fellowship.

THE SUCCESSFUL CANDIDATE WILL BE REQUIRED TO:

- Conduct innovative research on biogas optimization, upgrading, purification, compression, and bottling.
- Demonstrate relevant experience, understanding, and knowledge of wind turbine, gasifier system, biogas digester, and pyrolysis reactor designs.
- Contribute to the research productivity of the research group, postgraduate students as well as the Department of Physics.
- Publish a minimum of four (4) journal articles in DHET accredited journals per annum.
