

Dear Physical Sciences teacher

You are invited to attend the online SAIP Teacher's Workshop on

**TOPIC: TECHNOLOGY ENHANCED TEACHING**

**DATE: 22 - 23 JULY 2021**

The variety of presentations entails the effective use of modern technology when teaching a class, doing laboratory work, preparing your learners for the 4th Industrial Revolution and taking your class on a virtual journey into Space.

We also encourage you to share on your own ideas and experiences regarding technology enhanced teaching and to learn from one another. Time will be allocated during the workshop for you to prepare, upload and present on how you use technology for teaching, or how you prepare your learners for the 4th Industrial Revolution.

The three best contributions will receive prizes!

You can attend the online workshop from the leisure of your home. Data will be made available to teachers who indicate on their registration form that they require it in order to attend.

Click [here](#) to access the programme and registration form.

Registration date: 28 May 2021 | Registration fee: None

The subject group for Physics at the North-West University and the South African Institute of Physics will host this workshop. The workshop is open to in-service and pre-service Physical Sciences teachers who are interested in making a difference in their classrooms.

We look forward to see you!
