To Whom It May Concern

Reference on Company: South African Institute of Physics (SAIP)

This is to testify that Vhembe District worked with SAIP in Teacher Development Project for the past two years (2017-2018). Teacher Training Workshops were held across the District on the interval 24th- 28th July 2017 and 23 - 27 July 2018.

As we speak, arrangements are underway for this year's training which is scheduled during SAIP 2019 Annual Conference that will be held on 8 - 12 July 2019. We are looking forward to work with them.

Teacher's workshops are part of their expansion plans to provinces in need of support, particularly province which still owe to perform to the expectation of the country. As for last year the overall impression with the work done was appreciated by the teachers and the district leadership.

It was beneficial to the District (Vhembe District)

Warm regards
