

Formation of Tutors for Astrolab

a hands-on project with remote telescopic observations

Astrolab is an enquiry-based lab for undergraduated students to learn project oriented research using a remote telescope and free software. Lecturers interested in implementing the tutorial at their university receive a one week training to learn supervising Astrolab.

For more information on Astrolab:
www.unizulu.ac.za/astrolabtraining/

Applicants find more information and should fill in the downloadable form on www.unizulu.ac.za/astrolab_application_form/ before March 31, 2018.

18-22 June 2018

Venue:
